OF FEATURES
THAT SUITS
MY HEARING
LOSS AND MY
BUDGET IS
REALLY
IMPORTANT.”**

There is a MENU to suit all tastes and styles.

WIDEX MENU™

THE CHOICE IS YOURS

WIDEX®

THE CHOICE IS YOURS

When you have a hearing loss, it is not always easy to find the hearing aid solution that is tailor made for you – and your budget.

With the new MENU™ series from Widex you can choose exactly the features you need without paying for extras you don't need. The basic MENU option gives you great sound for easy listening and comes with state-of-the-art technology to minimise whistling. And it can even adapt to your changing listening situations – something that is usually found only in the more expensive hearing aids.

If you would like a more customised fitting with the best sound quality, then one option is to add more channels – five or ten. And if you want more features, such as our unique tinnitus program, or our technology for better speech in noise, they can be added.

Simply ask your hearing care professional to help you find what is best for you.

But don't worry. With or without extra features, MENU delivers clear and natural sound.

Stylish and technologically advanced
– MENU looks good and sounds even better.
