WIDEX WATER

RESISTANT >>>

YOU MAY NOT KNOW IT...

..but all Widex hearing aids are water resistant. From the internal electrical parts to the outer shell, our hearing aids have always been designed to withstand daily use in the harshest of environments.

PROTECTED FROM THE ELEMENTS

Moisture, rain, humidity...these are all things that can affect the performance of a high-tech hearing aid. That's why Widex has always worked hard to ensure your hearing aid is protected from the elements.

SAME WORLD-CLASS SOUND

Our super protection doesn't in any way affect the clear, natural sound of your Widex hearing aids. Proper protection also makes them more reliable and less liable to malfunction.

TAKE CARE

Looking after your hearing aid is also important if you want it to keep out the elements. For information and tips, see the user instructions for your hearing aid, or ask your hearing care professional
