HOW DO YOU WANT TO **HEAR**?

Any hearing aid can improve your hearing. A special one aims to give you true-to-life sound.

The new WIDEX DREAM™ hearing aid from Widex does exactly that.

If you're an experienced hearing aid user, you'll hear the difference straight away. Sounds will seem richer, more detailed and more well-rounded. You'll start to take more pleasure in the world of sound around you.

If the WIDEX DREAM™ hearing aid is your first, get ready to start hearing many of the sounds you've been missing, the way you remember them.

BECAUSE YOU DESERVE **TRUE-TO-LIFE** SOUND

“The cinema used to be the last place I’d pick for a night out. What’s the point in seeing something on the big screen when you can’t hear it the way it’s supposed to be heard? It’s completely different with WIDEX DREAM though - the sound comes through crystal clear with no distortions and I can even enjoy the loud parts! A trip to the movies is a memorable experience again!”

The WIDEX DREAM™ series allows more sound in than any other hearing aid. That means you’ll hear more details of the world around you, and in a way that’s as true-to-life as technology allows.

MORE SOUND

A photograph of a diverse crowd of people, including a man and a young girl in the foreground, all cheering and raising their fists in excitement. The scene is brightly lit, suggesting an outdoor event or stadium.

BECAUSE **SPEECH UNDERSTANDING** SHOULD NEVER BE COMPROMISED

“Taking my granddaughter out used to be a little embarrassing – she’d get tired of repeating herself and I’d often end up avoiding making conversation. Now nobody can shut us up!”

Thanks to unique technology that preserves the human voice, the WIDEX DREAM™ series provides the most natural, true-to-life sound possible. So you can enjoy conversations once more, even in the noisiest of social situations.
