MORE SOUND THAN EVER

Are you ready to hear life's nuances? How about leaves crunching under your boots, birds singing in the morning, or the whispers of children?

If you want to experience all the sound that life has to offer, then the Dinamico™ hearing aid is for you.

More Sound

Dinamico™ is designed to let you hear rich and detailed sound in all listening environments. Whether you are sitting at home drinking your morning coffee or having dinner in a noisy restaurant, Dinamico™ lets you hear clearly without distortion.

More Speech

Have you ever struggled to hear what people are trying to say when in a crowd? This is familiar territory for people with hearing loss, and Dinamico™ can help.

It reduces noise and improves the sound of speech, so you can hear crisply and clearly without discomfort.

More Connectivity

In the modern world, sound does not just come from nature. Mobile phones, tablets, televisions and stereos are vital to our sound environments.

Do not miss out. Our DEX™ connectivity solutions pair seamlessly with Dinamico™ to let you easily access music, phone calls, TV and more. You can also use them as a remote control for your hearing aids.

More Choice

There's a Dinamico™ hearing aid to suit all types of hearing loss. Talk to your hearing aid professional to find just which model is the right choice for you.
