

Every ear is different, but that does not mean your ears should not be allowed to enjoy the superior Widex sound. The new WIDEX CUSTOM™ provides many new benefits, such as a reduced size, better fit, customisable controls – as well as the wider sound picture, superior noise reduction and automatic sound handling that the powerful WIDEX UNIQUE™ technology offers.

PERSONAL CONTROLS

WIDEX CUSTOM offers customisable controls, letting you choose a Program Button, Volume Control or both. You also have the option to put the controls on the right or left hearing aid - or maybe one control on each hearing aid. The choice is yours.

ALWAYS CONNECTED

Connect to a world of sound. CUSTOM connects to the extensive range of DEX assistive listening devices through WidexLink™, a wireless technology that is extremely fast and uses less power, letting you stay connected all the time.

DEX accessories allow for effortless communication with audio equipment, remote controls, television, and mobile or landline phones.

EASY BATTERY ACCESS

WIDEX CUSTOM features a completely redesigned battery door that swings out to open. This design contributes to CUSTOM's small size while enabling fast access and easy battery changes.

WIDEX CUSTOM captures all the sounds you need, from the highs to the lows, from the very loud to the very quiet. No other hearing aid than Widex can capture such a wide range of sounds. CUSTOM also handles sound more precisely than other hearing aids, ensuring that the sound you hear is natural.

WIDEX CUSTOM continuously and automatically detects your listening situation and makes sure you hear the right sound at the right time in the right place. That way you can focus on what you are doing - instead of having to adjust your hearing aids.

Wear your CUSTOM hearing aids all day, without thinking about them.
